ATTENTION UNIT LEADERS

Beginning January 1, 2006 all tour permits will need to have all driver information listed for all drivers of any outing. This includes when all the parents are driving. We can no longer accept tour permits with "scouts transported by own parents" and no other information on the driver.

Tour permits are used for the protection of our scouts. A convenient way to have this information ready is to have a master list of the whole unit. Just add this to the tour permit with the drivers that are involved on any one outing highlighted or starred. The time to assemble this information is at recharter time. As you poll the families in your unit to see if they are continuing in Scouting you can ask for the driver information.

A local tour permit is required whenever you transport the boys away from their normal meeting place. A national tour permit is required for any outing that is over 500 miles one way.

Thank you for your cooperation with this important part of keeping our scouts safe.
